- **Tools:** MS Excel, Tableau Public, Power BI Desktop
- **IT Support:** Windows installation & troubleshooting, end-user support
- **Soft Skills:** decision-making, Critical Thinking, Team Collaboration, Problem Solving
- **Languages Known:** English, Tamil

Project

Superstore Sales Dashboard – Tableau

- Built visualizations to analyze Sales, Profit & Orders by Category, Region, and State
- Created dynamic KPIs and filters for year, segment, and top products
- Used bar, map, donut, and line charts to present key insights
- Enabled interactivity using radio buttons and slicers for better data storytelling

IoT-Based Smart Street Light System

- The Project is about an energy-efficient lighting system that automatically controls streetlights using sensors and a microcontroller.
- It detects ambient light and motion to switch LEDs on or off, reducing power consumption and enhancing safety.
- This cost-effective and scalable solution is ideal for modern urban infrastructure.
