PROFILE

Motivated and enthusiastic Fresher Full Stack Developer with strong foundational knowledge in Python, MySQL, HTML5, CSS3, JavaScript, Bootstrap, and React.js. Experienced in building responsive and scalable web applications through academic and personal projects. Skilled in frontend and backend development, REST API integration, and database management. Proficient with development tools such as Visual Studio Code, Git, and GitHub. Strong understanding of Software Development Life Cycle (SDLC), problem solving, and modern web development practices. Seeking an opportunity to start a career as a Software Developer or Full Stack Developer and contribute to real-world software development projects.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, SQL
- **Frontend Development:** HTML5, CSS3, Bootstrap, React.js
- **Backend Development:** Python (Flask), REST API Integration
- **Database:** MySQL, CRUD Operations
- **Tools & Technologies:** Git, GitHub, Visual Studio Code, MySQL Workbench, Kali Linux, CodeBlocks

INTERNSHIP EXPERIENCE

Python Full Stack Intern | Pumo Technovation | 2026

- Worked on developing web applications using Python and frontend technologies.
- Gained hands-on experience in full stack development concepts and database integration.
- Collaborated on project modules and improved understanding of Software Development Life Cycle (SDLC).

PROJECTS

Online Food Ordering System

Technologies Used: React.js, HTML5, CSS3, JavaScript, Python (Flask), MySQL.

- Developed a responsive Online Food Ordering Web Application for browsing restaurants and ordering food.
- Implemented user authentication (login & registration) for secure access. Created dynamic food menu display using React components.
- Implemented Add to Cart and Order Placement functionality using JavaScript and React state management.
- Integrated Python Flask backend with MySQL database to store user and order details.
- Designed a responsive UI using HTML, CSS, and Bootstrap for better user experience.

AI-Based ATS Resume Analyzer

Technologies: Python, Streamlit, Google Gemini API, NLP, PyPDF2, pdf2image

- Developed an AI-powered Applicant Tracking System to automate resume screening and candidate shortlisting.
- Implemented job description-resume matching using Google Gemini API to generate match percentage scores.
- Designed a skill-gap analysis module to identify missing competencies and recommend upskilling paths.

EDUCATION

B.Sc Computer Science

Graduated: 2025 | CGPA: 6.45
